

Online Voting System

Name: K. Siddhardha

Branch: EEE

Roll No: 25A31A0241

Introduction

- Online Voting System allows people to vote using the internet.
- It helps conduct elections quickly and easily.
- It reduces manual work in elections.

Objectives

- Make voting simple and fast
- Reduce time and cost
- Provide quick and accurate results

Advantages

- Vote from any location
- Saves time and paper
- Fast result calculation

Conclusion

Online Voting System is a modern and efficient way to conduct elections. With proper security, it can improve the voting process in the future.
